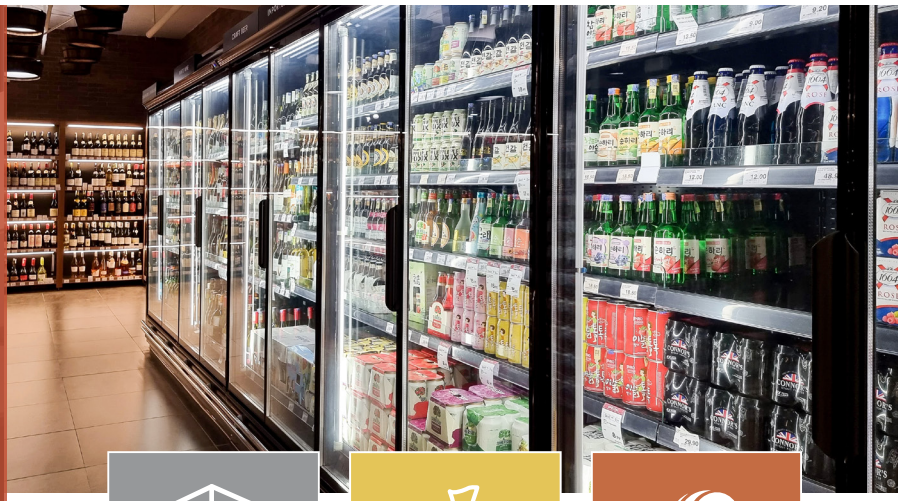
Magnetic Cabinet Lock



EXCLUSIVE PRODUCTS

BEST VALUE

RUGGED CONSTRUCTION

Camden CX-EPD0009 Magnetic Cabinet Lock has an ultra-compact design and is an easily installed high-security lock for virtually any enclosure door, including computer cabinets, refrigerators, lockers, and retail display counters. This 12V or 24V magnetically operated lock has a holding force of 440 lbs. (200 kg) and is water-resistant, making it ideal for humid environments, including inside fridges and freezers.

Features

- Front or side mounting for use with swing or sliding doors and drawers
- Armature plate adjusts to door alignment
- Water resistant for indoor and outdoor use
- Ultra-compact design
- 440 lbs. (200 kg) holding force
- 5 lbs. preload
