

# Innovative Style & Durability

Timeless, unmatched range of commercial washroom solutions designed with both form and function in mind

## ALL-IN-ONE TOUCH-FREE WASHBAR®

A completely touchless handwashing experience, with soap, water and dryer in one intuitive and attractive unit. Smart solutions for cleaner restrooms and less maintenance. The award-winning WashBar is now available in multiple styles and options with quartz or solid surface basins.

**Applications:** Museums, banks and credit unions, colleges and universities, entertainment and amusement centers, healthcare and office buildings, restaurant and retail locations

## HANDWASHING SOLUTIONS

**Verge™ Touch-free Matching Soaps & Faucets** create washroom harmony. Good looks and technology go hand in hand with the Verge line of soap dispensers and faucets. Advanced sensor technology eliminates false activations and optimizes power consumption, longer spouts create increased handwashing space.

**Verge® Wash Basins** – Cast-formed in Evero®, Verge basins feature one-piece construction with no visible, discolored seams or unsightly caulk lines. More durable than granite and maintenance free, these stylish basins perform well in high traffic, high vandal areas.

**OmniDecks™** – Customizable, prefabricated and ADA-compliant. Choose from dozens of Terreon® solid surface colors for decks and bowls, and a variety of bowl shapes.

**Express® ELX Series** – Perfectly blends the benefits of a solid surface one-piece multi-user bowl with the desire for personal space. A worry-free solution designed to handle the demands of a commercial restroom.

**Applications:** Schools and universities, theaters, department stores, airports, stadiums, convention/civic centers, restaurants, supermarkets, health clubs/gyms

## WASHROOM ACCESSORIES

An extensive line of accessories many with touch free activation and anti-microbial coatings are available: towel dispensers, soap dispensers, waste receptacles, mirrors, Aerix® hand dryers, grab bars and shower curtains.

**Applications:** Airports and other public restrooms, hospitals, entertainment venues, restaurants, hotels/motels, schools, offices

**SteadyCare™** – Grab bars and showers seats have industry leading load ratings up to 1250 lb that enhance balance and stability in restrooms and shower rooms for people of all sizes and abilities.

**SafeCare™** – Products, developed in consultation with behavioral health professionals, are for restrooms in specialized care situations. Handwashing solutions, wall showers, and accessory options are designed to bring a more home-like feel to patient rooms.

**Applications:** Hospitals and other healthcare facilities, office buildings, schools and retail

## MILLS® TOILET PARTITIONS & NEW PRIVACY PARTITIONS

Stylish partition panels provide privacy in high-traffic public restrooms. Extra height doors and panels. No-Site™ options. Large selection of color, mounting styles and material options including powder coated, stainless steel, phenolic core and Bradmar™ solid plastic. Available in a variety of configurations to fit most bathroom designs and backed by a 15-year warranty.

**Applications:** Airports and other public restrooms, entertainment venues, restaurants, hotels/motels, schools, offices

Commercial Washrooms. Industrial Solutions. Brought to Life.

# Rugged, Reliable & Ready

High-quality, unparalleled range of long-lasting products for the most demanding industrial plumbing and emergency safety applications

## EMERGENCY SAFETY AND TEMPERED WATER SOLUTIONS

**Emergency Plumbing Fixtures** help prevent serious eye, face and body injuries.

A broad product line includes eyewashes, drench showers and portable units with Halo™ technology and SpinTec™ shower heads for the fastest, most effective relief available. Custom signaling systems provide the safety features you need for your specific application. Products are manufactured to meet ANSI/ISEA Z358.1 standards and are third-party certified.

**Navigator® Thermostatic Mixing Valves** mix hot and cold water to a comfortable temperature range in low or high use situations and safety applications. Complete offering of valves used in conjunction with faucets, showers and emergency eyewash/drench shower equipment. Single valve design provides maximum efficiency in temperature control to within +/- 3°F. Emergency valves with cold water fixed ports assure cold water flow while hot water shut-off ports prevent scalding.

**Keltech® Electric Tankless Water Heaters** provide hot water on demand, saving water and energy by heating water only when necessary. Innovative controllers are fully modulating meaning only actual kilowatts needed are used. Keltech heaters are the only electric tankless heaters registered with the National Board and certified with the HLW stamp.

**Applications:** Food processing facilities, hospitals, manufacturing facilities, mining, paper/pulp processing facilities, schools, transportation, warehouse, laboratories, government, apartments, hospitals, entertainment venues, religious facilities, and hotels/motels.

## NEW! TWO VALVES IN ONE

Save installation time and space under the sink with Bradley's newest Navigator® Thermostatic Mixing Valve is engineered to deliver safe water temperatures to a commercial faucet and faucet-mounted emergency safety eyewash fixture. During regular faucet use, the TMV delivers tempered water for uses such as hand washing; in an emergency, the valve delivers tepid water to the emergency safety eyewash to meet the ANSI/ISEA Z358.1-required 15-minute flush.

**Applications:** Healthcare, schools, manufacturing facilities

## WASHFOUNTAINS

Durable heavy-duty wash stations quickly service multiple users. Configurations to accommodate 3-8 users and models that allow for full arm length washing applications, touch free activation and ADA compliance. Available in Stainless Steel, Terrazzo, Terreon® or Bradstone™.

**Applications:** Entertainment venues, maintenance or repair facilities, manufacturing facilities, food processing facilities, schools, and stadiums

## SHOWERS AND LOCKERS

Long-lasting single and multi-user shower stations for public facilities. Variety of configurations available including wall-mounted, in-wall mounted, column and panel shower systems.

**Lenox® Plastic Lockers** stand up to the toughest conditions and will not rust or dent and never need to be repainted. HPDE material is resistant to bacteria and moisture and withstands constant cleaning. Available in multiple styles, configurations, colors and bench options.

**Applications:** Sports facilities, recreation/health clubs, dormitories and schools, hospitals and healthcare facilities.

**Commercial Washrooms. Industrial Solutions. Brought to Life.**
