Operation & Maintenance Guide](#)

WARNING

All mounting hardware is supplied. Installer must use appropriate anchors for wall construction. Wall anchors used must have a minimum pull-out rating of 500 lb.

The electronic dispenser assembly is no stronger than the anchors and walls to which they are attached, and therefore, must be firmly secured in order to meet regulatory requirements. To avoid potential injury, the building owner or maintenance personnel should remove dispenser assembly from service if the mounting is not adequately secured to the wall or if there is any observed product function issues.

NOTICE

Before installing this product ensure that there are adequate clearances around the product in both the user position and the stored position.

IMPORTANT

Read this entire installation manual to ensure proper installation. When finished with the installation, file this manual with the owner or maintenance department. Compliance and conformity to local codes and ordinances is the responsibility of the installer.

For recommended mounting height, do not exceed 55" distance from the top of the towel dispenser to the finished floor.

Separate parts from packaging and make sure all parts are accounted for before discarding any packaging material. If any parts are missing, do not begin installation until you obtain the missing parts.

Product warranties may be found under "Products" on our website at bradleycorp.com/customerservice/warranty.

Supplies Required

- Included hardware kit or hardware suitable for mounting surface
- Mounting template (provided in box)
- Level
- Pencil
- Drill with an appropriate drill bit for wall surface and hardware
- Phillips screwdriver
- Approved eye protection
- (4) D Batteries

1 Locate Mounting Position

Use the key to open the dispenser and hold the dispenser in the desired location.

3 Drill Mounting Holes

Using a drill with the appropriate drill bit, drill the holes into the wall or surface.

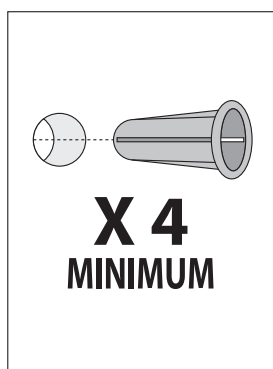

4 Insert Fastener Anchors

Insert fastener anchors into the wall, if needed.

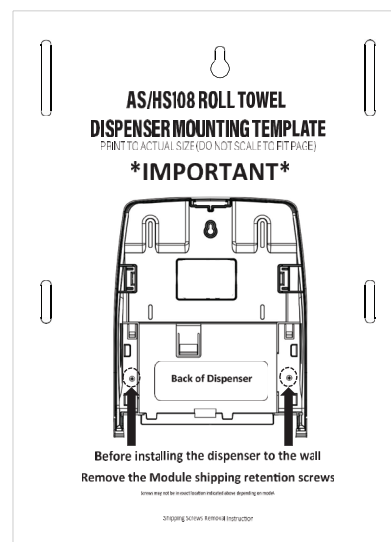

Be sure to use the appropriate fastener anchors and hardware for the surface.

2 Mark Mounting Holes

Using the mounting template (provided in box), place a level across the top of the mounting template to level the dispenser, and mark a minimum of 4 mounting hole locations on the wall.

5 Attach Dispenser

With the dispenser in the open position, use the supplied hardware (or suitable hardware) to mount the dispenser securely into place.

Use the level to ensure the dispenser is balanced.
