CAST-FORMED NATURAL QUARTZ

## Distinctive Beauty, Extraordinary Performance

Inspired by nature, Evero is the first and only quartz material that is cast into round and curved shapes with no fabrication or seams. Imagine graceful curves, distinctive shapes and effortless beauty that will last a lifetime.

Virtually maintenance-free, Evero provides a refined look for commercial washroom spaces.

# VERGE®

## Stunning, Seamless, One-Piece Designs with the Beauty of Natural Quartz

Verge® Wash Basins bring sophisticated designs in Evero cast-formed material to the restroom. Verge basins are artistically sculpted, elongated sinks featuring cast, one-piece construction – no unsightly caulk lines or discolored seams. Verge hand washing solutions are available in a variety of designer-inspired shapes to complement any public, hand washing experience.

### LVS

Smart, understated elevations create personal space in a linear design.

### LVR

Bold, balanced design that exudes confidence and energy.

# A Backdrop of Sophistication

## Evero **Geo Series**

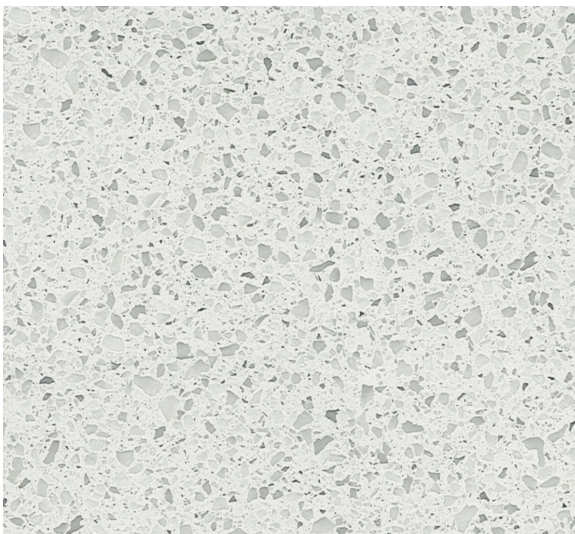

Designers take inspiration from around the world and so did we – from the mountains of Nepal to the deserts of Africa to the islands of Greece. The Geo Series fuses the beauty of quartz with the durability of granite and the allure of exotic materials and semi-precious stones. Evero Geo Series is a striking material that performs as magnificently as it looks.

## A Backdrop of Luminosity

## Evero **Pearl Series**

The ancient Japanese believed pearls were created from the tears of mermaids. The Chinese believed dragons carried pearls between their teeth. No matter how they came to be, the Pearl Series mesmerizes with a luminous blend of quartz, opalescent sea shells and recycled glass. Evero Pearl Series is an impressive material that performs as brilliantly as it looks.

# The Elegance of Quartz with the Durability of Granite

Evero is a durable long-lasting material featuring a 15-year warranty. It is non-porous, completely seamless, and easy to clean and maintain. The absence of cracks or crevices prevent bacteria from accumulating. Evero contains natural material components and is GREENGUARD® certified as a low-emitting material. Evero: The natural solution for your commercial hand washing design journey.
