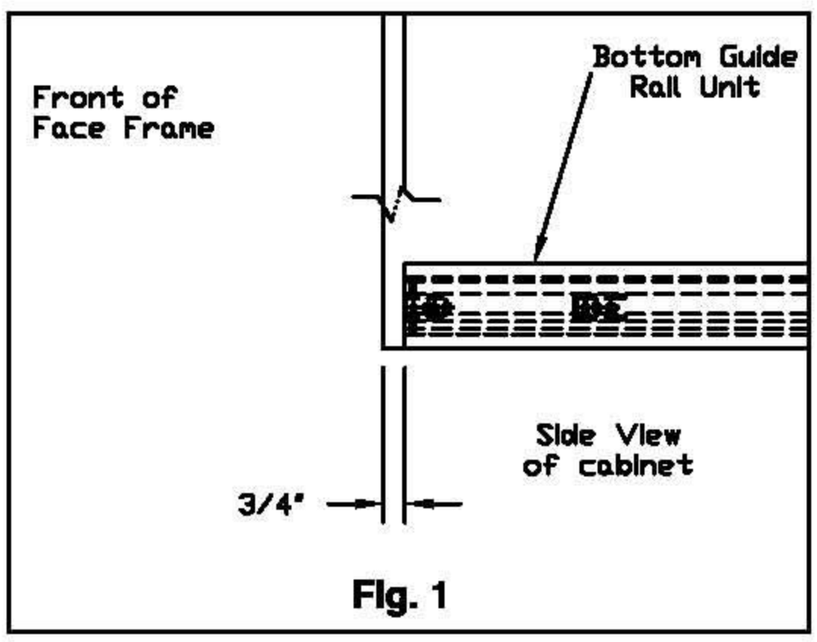

Fig. 1

Installation Instructions

Step 1 Remove door from cabinet. (**IMPORTANT! This unit is designed for use with a 24" deep base cabinet.)**

Step 2 Remove the organizer pull-out unit from the bottom guide rail unit by depressing the black release clips (one for each slide) and pull away so that the two items are seperated.

Step 3 Place the Bottom Guide Rail unit on the floor of the cabinet opening and locate the front of the Bottom Guide Rail unit 3/4" from the front of the cabinet frame. **(See figure 1).** Then center the Bottom Guide Rail unit left to right within cabinet opening and fix into position to the cabinet floor with screws (not included). (**IMPORTANT! Screw down all four corners of the Bottom Guide Rail unit.)**

Step 4 Install the Base Organizer Pull-out unit into the Bottom Guide Rail unit, making sure that the front of the Base Organizer Pull-out unit is flush with the front of the cabinet frame.

Step 5 Install Bumpers to inside edge of cabinet face frame at higth of top rail on pull-out one on each side

.

Step 6 Attach the cabinet door to the Base Organizer Pull-out unit using the mounting plates making sure that the door is centered to the cabinet. (**IMPORTANT! Use caution on your fastener length so it does not protrude through the face of the door.)**
