Best Method
ATTACH TO UNDERSIDE OF TOP, DRILL THROUGH PLYWOOD BACK PANEL

Warranty: To be effective this product must be used in accordance with the instructions. Failure to follow the instructions will void all warranties. Specifically it must be attached to studs and to solid wood surfaces on the furniture. Some furniture is made from particleboard: please consult the furniture manufacturer or seller for construction material details. The Anti-Tip KIT™ will withstand a 400 lb pull , however we cannot warrant that your furniture will withstand the same force. Our Anti Tip Kit™ helps to keep items from tipping over; it does not help to secure drawers from sliding out or objects from sliding off tops of furniture. Consumer assumes all responsibility for product use and any risks or damage. Neither seller nor manufacturer will be liable for injury, loss or damage from inappropriate installation of Anti Tip Kit™. **Warrantied against defects in material or workmanship. Any broken or defective unit will be replaced. No other warranties or remedies expressed or implied are offered.**

Never mount bracket to the edge of particle board
