Linking Press to pair distributors with Battery-free Rocker Switches

Set Distributor to Pairing Mode

Press and release the black reset button on the Distributor. The red light on the Distributor will blink slowly when ready for pairing.

Pair Distributor With Rocker Switch

1. Press and hold the upper button for 8 seconds and release.
2. Press the upper button for 1 second and release.
3. Press and hold the upper button for 8 seconds and release.
4. The status LED and the lights connected to the Distributor should flash 3 times to indicate the pairing was successful.

X8, X1, X8

Control settings are pre-programmed and available once pairing is complete.

Tunable White

Use the Double Rocker Switch. The left switch controls On/Off/Dimming; The right switch controls the color temperature. To pair a distributor with a double rocker switch, follow the same process, pressing the upper left button.
