**CAUTION:**  
 Häfele America Company offers construction are detailed with dimensions (day-light width & day-light height) that are provided by you, our customer. It is the strict responsibility of our customer(s) to verify the correctness of each, as it pertains to the following:  
 \* Day-light opening, width (finished wall-to-wall)  
 \* Day-light opening, height (bottom of top track to finished ceiling orientation of panel(s))  
 \* Total number of panels (fixed, pivot, swing, sliding, etc)  
 \* Inside of opening, as labeled.  
 Manufacturing/production of this application will NOT begin without an approved 'clean drawing'. See definition below of 'clean'. The 'approval' of the engineered drawing must include the following:  
 \* Signature & printed name & Date of approval  
 Häfele America cannot be held responsible, expressed or implied, for information that is customer-supplied in relationship to the correctness of this drawing.
