

Why your customers need HPC KeyTrail®

They need an efficient way to help their customers manage the security of their facility

How to sell the HPC KeyTrail® program

Key Selling Points:

- ★ KeyTrail® is a simple-to-use software program that keeps track of keys, the doors they open, and the people who hold them
- ★ View the 6 different windows at one time to see lists of personnel, keys, key rings, locks, locations, and all keying information
- ★ Easy-to-Use with drag-and-drop technology, pull-down menus, and keyboard shortcuts
- ★ Network compatible for use in multi-user environments
- ★ A large variety of detailed reports is available to provide concise information
- ★ Flexible security easily controls the information that users may access

The CORES window lets you keep track of all of your cores, cylinders, and locks whether they are installed or in stock.

The RINGS window enables you to group keys together. Once together they can be moved and assigned as one.

The PERSONNEL window displays a list of the people holding the keys.

The KEY SYMBOLS window displays the biting and depth & spacing information. Separating Key Symbols from Keys and Cores allows people to view or loan out keys without having access to vital key cutting information.

The LOCATIONS window displays a list of the doors that the keys open and the cabinets storing the keys.

The KEYS window displays a list of the keys that open the doors.

No. KT-CD
