SARGENT AND GREENLEAF®

Model 2937

Model 2937 Mechanical Safe Lock

BUILT TO FEDERAL SPECIFICATION FF-L-2937.

Built to provide high-level security for government and defense industry applications, Sargent and Greenleaf's proven, high security Model 2937 protects field safes, armory vault doors, and other GSA-approved containers. **Sargent and Greenleaf is trusted by governments, corporations, and individuals worldwide for quality and expertise, and leveraged more than 160 years of technical excellence in creating the Model 2937 Lock.**

FEATURES

- **ADVANCED ATTACK RESISTANCE.** Underwriters Laboratories tested Model 2937 Locks to resist over 20 hours of expert manipulation. Integrated features protect the lock against forced entry, punch attack, thermal attack, and brute force attack. Our SpyProof™ Dial ensures that only the lock operator sees the numbers on the dial.
- **SIMPLE OPERATION.** Use familiar left-right-left dialing, turn to zero, press in and release, then turn the dial to open.
- **QUICK COMBINATION CHANGES.** Three all-metal wheels allow for over 1,000,000 potential unique combinations, easily managed with Sargent and Greenleaf's user-friendly key changeable wheel design.
