
Securiton General Information

Custom System Design

Securiton specializes in producing custom controls for electric locking systems. Controls often include interlocking and timing functions, remote reporting and telemetry, and use of industrial control computer elements. You'll find Securiton technically savvy and cost-effective.

Warranty

Securiton warrants its products to be free from defects in material and workmanship for a period of five years for Magnalocks and Touch Sense Bars. Two years for other products. Liability is limited to repairing or replacing any defective product.

TSB Series Touch Sense Bar

TSB-3 Clear Anodized

TSB-3

Both the sensor (with DPST contacts) and the bar assembly come complete with mounting fasteners, armored door cord, and instructions. Revolutionary door release bar activates only when it senses human touch. 36" opening—34-1/2" actual bar length, 42" opening—40-1/2" actual bar length, and 48" opening—46-1/2" actual bar length. One piece bar construction allows field modification to fit any size door opening. Append bar length to part number if not 36"—i.e., TSB-3-42.

- 12 volt or 24 volt operation AC or DC.
- Two finishes:
 - TSB-3—Clear anodized
 - TSB-3BK—Black anodized
- Consumes 15 mA at rest, 25 mA when switching.
- Dual redundancy switch built-in for reliability.
- 5 year warranty.
- Touch Sense Bar Replacement Parts
