CODELOCKS

Codelocks electronic range provides simple yet effective access control. The functionality of electronic digital locks provides major benefits over mechanical ones and unlike other access control solutions, the digital locks do not require complex wiring, ID cards or external power making them more cost effective for many applications.

CL5500 Series: Use your smart phone to program the keypad, smart card, other smart phone users (K3 connect free app), up to **350 users**. Be the master code or sub master administrator, lock down locks within 250 feet, add one time code users, suspend or restore a code client, **set open and close** schedules for each lock.

Be Notified if lock is opened outside normal set hours of access. **Auto** lock/unlock to ten different time schedules, i.e. code free or passage mode at 8:30 am and relock at 4:40 pm. **Audit** the last 2000 transactions at the lock. **Download** by **CSV** file or **Screen Shot** section desired.

Key Over-ride is Schlage screw-cap type or SFIC.

"The Future is NOW at Codelocks !"

'HONE

Operate and manage directly via the keypad or via a compatible smartphone by downloading the K3 Connect App*. Program locks via your smartphone, generate and send codes for easy access, issue smart cards for alternative entry, track and control with audit trail.

Stay in Control
Install the K3 App on a compatible smartphone. Controlling locks has never been so convenient. Manage all aspects of your lock from your smartphone.

Code Card Phone
Multiple access. The locks provide flexibility and convenience by providing a range of entry methods. Allow Clients access via a simple code, allocate and register a MIFARE® compatible card or send an invitation to their phone.

Controlled Code Free
Allow access at set times of day by setting the lock into Code Free mode. Removes the hassle of unlocking doors for free access periods. Reduce the administration burden of manually putting locks into Code Free mode.

NetCode
Control Entry. Set codes for a specific start date and time and that automatically expire after a set duration. Send these set codes via email or SMS.

Audit Trail
Keep track on when and where the lock was accessed. Download and view the full lock audit trail data.
