

Why your customers need HPC MasterKing®

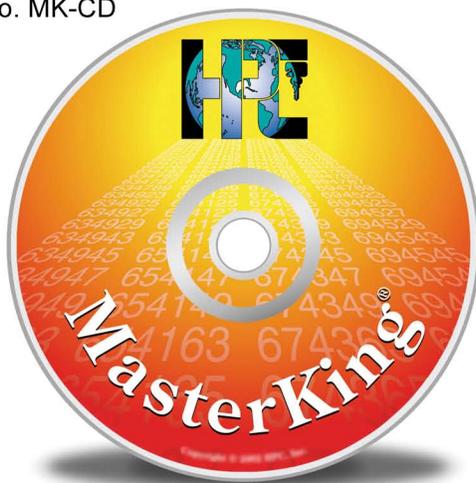

Providing master keyed systems is an essential part of servicing the highly profitable commercial, industrial, and institutional customers in your market. Creating a master key system on paper is a time-consuming process, and costly mistakes are easy to make.

How to sell HPC MasterKing®

Key Selling Points:

- * Let the computer do the work quickly and error-free. The program calculates thousands of bittings in seconds, with just a few clicks of your mouse.
- * The fastest, easiest, and most accurate method for creating a master key system is with HPC's MasterKing®.
- * The easy-to-use Set-Up Wizard takes you through the creation of the master key system; accept the manufacturers' defaults or make adjustments to customize the system to your requirements.
- * The database includes more than 175 lock types from more than 50 manufacturers, or create your own lock specifications, insuring you can create a system for the lock you are using.
- * Automatically eliminates the possibility of transposed numbers, duplicated bittings, ghost keys, and uncuttable keys due to MACS violations, the program provides only useable data, saving you time and money.

No. MK-CD

Choose from multiple format options allowing you to handle virtually any customer requirement:

- The List Format to create systems up to 5 levels
- The Page Format to create multi-level systems
- Total position progression to view all available bittings
- Rotating constants to provide the largest number of bittings in a 2-level system
- The Sectional System combines multiple projects for graduated or progressive keyways
