

MORRIS CAT#: 13500
Drillers Dust Bowl

Features:

Drillers Dust Bowl features include:

- Driller's Dust Bowl solves the problem of making a mess while drilling large diameter holes in ceiling for the installation of recess light fixture, eliminating the need for face mask, goggles, drop cloths or vacuuming.
- The tool accessory is easily fitted between a drill's chuck and the cutting tool.
- It forms a seal to the surface of the material being worked on, and collapses like a plunger to allow the user to perform the task while encapsulating all the debris created by the process.
- It works with a wide variety of drill bits, other cutting tools, and all sizes of hole saws.
- Saw Dust Collector Works with tools you already have
- No ceiling marks
- Saw Dust Collector Stops you from punching through once hole is cut
- Order Qty of 1 = 1 Piece
