CIRCUIT TESTER

80 TO 500 VOLTS AC/DC

- * Lamp Glows if Circuit is Live
- * Handy Pocket Clip

MORRIS PRODUCTS INC.

Circuit Tester

Checks voltages from 80 to 500 AC/DC

INSTRUCTIONS

Just touch leads to receptacle, wires or contacts to be tested with power ON. Neon glow indicates live circuit.

AC
Both electrodes glow

DC
One electrode glows

This tester will check for any AC or DC voltage from 80 to 500 volts - thus adequately covering the voltages found in most homes. To determine the hot side of any AC receptacle, ground one tester probe and insert the other in either side of the receptacle. The tester will glow when the hot side is touched.

CAUTION:
Use extreme caution when checking live electrical circuits to avoid injury due to electrical shock. MORRIS PRODUCTS assumes basic knowledge of electricity on the part of the purchaser and is not responsible for any injury or damages due to improper use of this tester.
