

815 series concealed drawer slides for face frame cabinets

The perfect balance of performance and reliability, the 815 series provides the maximum undermount value on the market today.

A favorite of cabinet makers with cost-sensitive projects who are looking for a concealed slide without sacrificing functionality and performance. Soft-close technology, height drawer front adjustment, plus a **80 lb (35 kg) load capacity** make the 815 series a perfect option for cabinet makers everywhere.

- Telescopic movement
- Suitable for wood drawers only
- Elegantly concealed underneath the drawer bottom
- Large width provides superior stability between cabinet and drawer
- Automatic soft-closing mechanism allows a progressive and silent closure of the drawer
- Easy opening with a low pull-out force requirement
- Full extension slide allows a complete access to drawer content
