### Vertiko:

Your clothes are beautiful! ... They deserve better than being hidden behind doors!

Inspired by the layout of luxury shops, the Vertiko system allows you to make customized wall displays, which will enhance your closet space.

Vertiko is composed of concealed wall profiles that are installed to the original wall and on which are then affixed decorative panels of your choice (19mm / 3/4" thickness). These hidden rack profiles are used to affix: shelves, shelves with wardrobe rods and/or storage cabinets using specially designed metal brackets. All these components offer a unique design flexibility.

With Vertiko, stored items will give the impression of « floating » in the wardrobe space!

### Configuration Options:
