Description

Our FormArt panels are produced from MDF and are available in contemporary designs. Panel thickness varies according to the pattern chosen. Panels can be installed sequentially and have a white melamine backing to ensure greater stability.

Important Information

- Sold unfinished.
- This model is available in a variety of thermoplastic colors (upon request).
- Other sizes are available upon request.

Advantages and benefits

- Panels are paintable, and can be tinted or treated in a thousand ways.
- Perfect for contemporary designs.
- Made of MDF Superior Plus.
- Can be treated against humidity and moisture.
- Can be made without formaldehyde or fire-rated (see technical documents).
