

Save space using this new vertical wall bed mechanism with a full steel structure, wooden slats, and an automatically unfolding leg.

Advantages and benefits

- ✓ This unit features a built-in locking system in the open position, offering better functionality and increased safety.
- ✓ Can be used in small rooms to economize space.
- ✓ Legs unfold automatically when the mechanism is opened, requiring less effort; when the mechanism is closed, the legs store themselves parallel.
- ✓ The slats are made of six layers of birch, bent and laminated under pressure, ensuring firm support.
- ✓ Just one SKU for all parts!
- ✓ As comfortable as your own bed!
- ✓ The mounting instructions are available on our website.

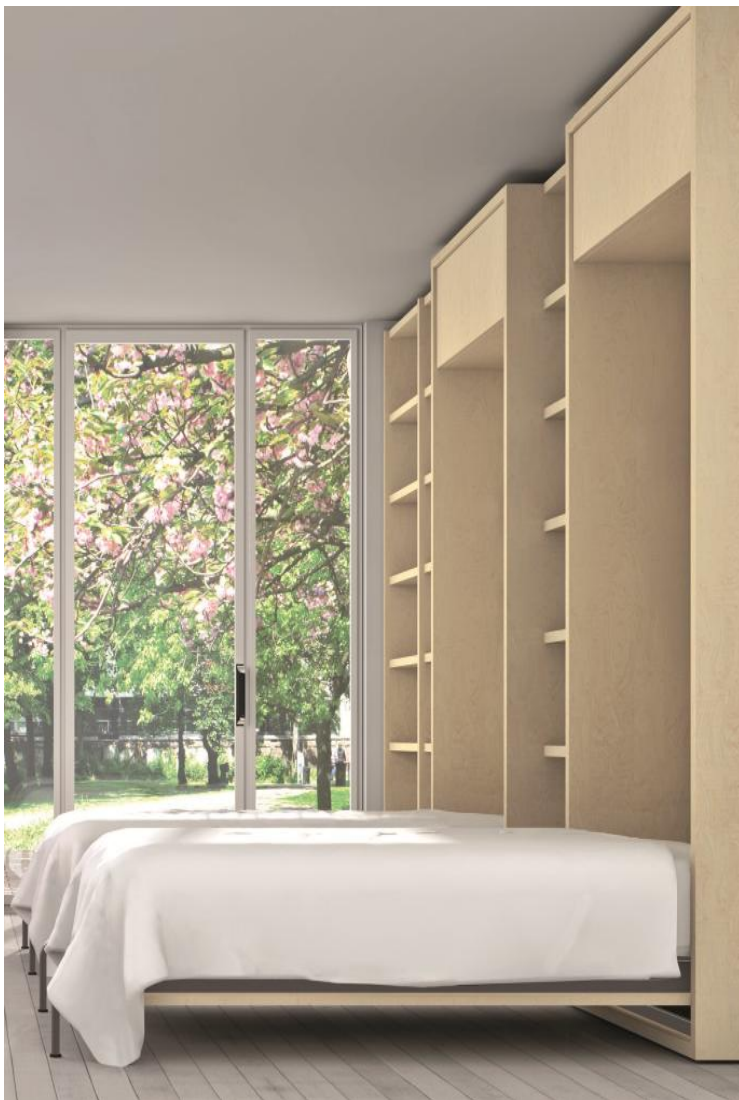

Important information

- ✓ Cabinet is not included.
