PULL-OUT CHOPPING BOARD WITH CUTLERY TRAY BLADE

One system, a thousand possibilities of use.

Application

- **BLADE** is a new solution of multifunctional mechanisms, created not only for the optimization of spaces, but also for an increasingly practical and intelligent home experience.
  Ideal for the kitchen.

Description

BLADE creates a workstation dedicated to the preparation of meals that is revealed only when necessary: it is always possible to access only the cutlery tray or open the entire large cutting board – completely removable for easy cleaning.
The complete set is designed for a 610-mm wide cabinet (with 16 mm or 19 mm side gables). The interior width requirement is 562 to 568 mm.

Advantages

- The cutting board and cutlery tray are completely removable for easy cleaning.
- Optimizes workspace in a small kitchen.
- Hidden in a cabinet when not in use.
- Take the space generally used for a standard drawer.
- Aluminum brackets.
- Total extension outside the cabinet of 820mm (32 ¼")
- Weight capacity: 60 Kg (132 lb).
- Stainless Steel finish.

Code	Description	Interior Dimensions Required W x D X H
781492510	Mechanism ONLY	N/A
342434150	Maple chopping board	W: 562 to 568 mm (22 1/8” to 22 3/8”)
342420150	Cutlery divider tray	W: 562 to 568 mm (22 1/8” to 22 3/8”)
