

TECHNICAL INFO

Max Distance between 2 connectors

20X20	80cm With ALU PROFILE
25X25	160cm With ALU PROFILE

Load Capacity with 2 connectors and the Max. Distance

20x20	40 kg with ALU PROFILE 80cm
25x25	60kg with ALU PROFILE 160cm

These are approximate load capacity in default. This because for more structured configuration with several joints, the weight is downloaded/shared per joints and the load capacity of the structure increase a lot.
