FLEXA is our most versatile Monitor System.

The base configuration serves as a basis for a wide range of solutions.

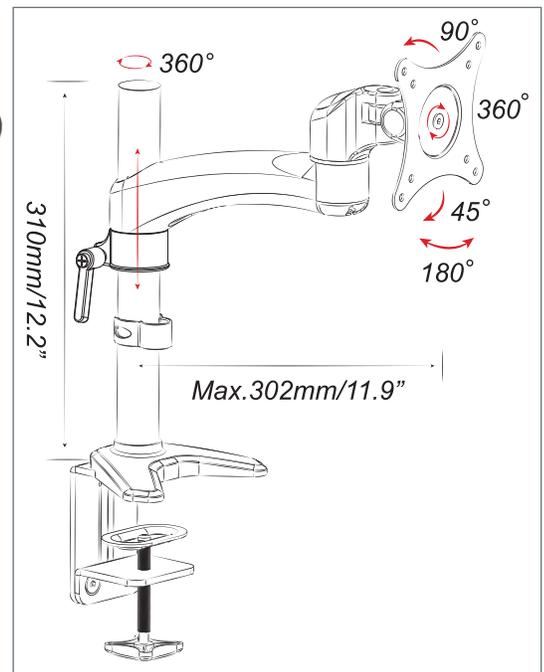

With both Fixed and Floating base packages, you can mix and match all the components to achieve the perfect solution from single to quad monitor configurations.

- The base configuration provides a strong stable mount for monitors from 15" to 27" (381 to 686 mm)
- Height adjustable on pole
- Die cast aluminum structures
- Integrated cable management
- Easy assembly and flexibility
- Grommet and desk clamp included
