

MASKING TAPE

PREMIUM SAFE TACK

cantech®

10907

CHARACTERISTICS

- Easy, clean removal from most surfaces
- Excellent conformability
- Superior paint lines
- Consistent, easy unwind
- Resistant to humidity and paint bleed-through
- Secure adhesion

Thin, green crepe paper with pressure-sensitive synthetic rubber adhesive, specially designed to remain exposed to sunlight for **up to 14 days**.

APPLICATIONS

- For use on regular, semi-delicate and delicate surfaces
- Recommended for areas where the tape needs to be removed up to fourteen days after application
- For masking applications where UV resistance is required
- Designed to resist most paints and lacquers
