

PULL-DOWN CLOSET ROD

WITH ADJUSTABLE TENSION AND SIDE MOUNTING

The only pull-down closet rod that adjusts to the weight of your clothes!

From lightweight shirts to heavy winter coats, this rod adapts to all loads.

The pull-down rod, featuring adjustable tension in four positions and a high load capacity (30 to 44 lb / 14 to 20 kg), is designed to adapt to the actual weight of your clothes, from the lightest to the heaviest.

Its tilting arms and adjustable width fit a wide range of cabinet depths and widths, providing optimal storage. Unlike traditional fixed-capacity models, this rod redefines closet organization with flexibility, strength, and style.

Available with black arms and a chrome rod, it installs quickly thanks to its compatibility with the System 32, with no additional drilling required.

AVANTAGES

- Adjustable tension with four positions for a perfect fit to the weight of clothes
- High load capacity, ideal for heavy clothes such as coats
- Tilting adjustable arms and an adjustable width system to fit all cabinet configurations
- Durable steel mechanism
- Easy installation, compatible with the System 32

No.	Product Width	Min. Int. Depth Required	Min. Int Height Required
1512230100	16 7/8" to 24 3/4" (430 mm to 630 mm)	15 3/4" (400 mm)	35 7/8" (910 mm)
1513044100	24 3/4" to 40 1/2" (630 mm to 1,030 mm)
