

Rocker switch

Instruction sheet

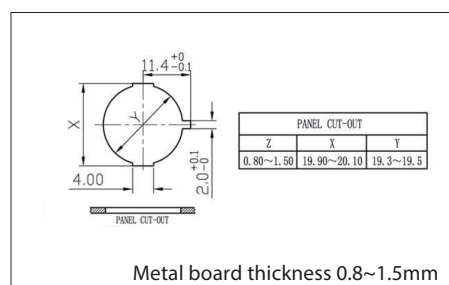

Voltage	Max. current	Terminal strength	Electric life	Current resistance	Insulation resistance
24V DC	3A	$\geq 80\text{N}$	≥ 10000 cycles	$\leq 50\text{m}\Omega$ (initial)	$\geq 100\text{M}\Omega$

1

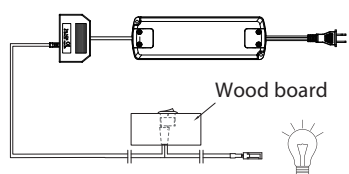

Drill holes.

2

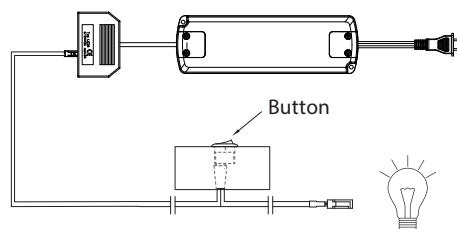

Drill holes.

3

Input end: connect to the driver.
Output end: connect to the light.

4

Press the button to turn on/off.
