TANDEM
Bottom mount Waste Bin

Black TANDEM bottom mount wastebin 2x15l **made of recycled materials.**

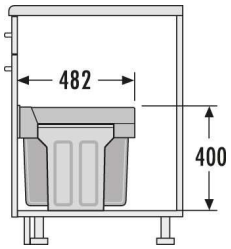

Description

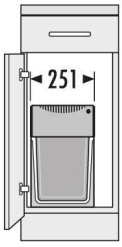

TANDEM is a wastebin designed to make maximum use of cabinet space, especially in a undersink cabinet (organic waste management).

Advantages

- Plastic parts made from recycled plastic
- Practical built-in waste separator for kitchen cabinets from 30 cm (12'') width with two removable inner bins of 15 liters (15.75Qt) volume each.
- Total capacity: 30l (31.5Qt)
- Thanks to the integrated full-extension rails, the waste separation system can be pulled out completely, thus revealing the insertion opening for the inner bins.
- A plastic system lid covers the inner bins hygienically after they have been pushed back into the recycling center.
- Trendy black color

Trendy BLACK color. Made of recycled materials.
