SCHLAGE

ND Series

Grade 1 cylindrical lock

Overview

The ND Series has long been one of Schlage's best selling mechanical locks for good reason - it's tough, durable and fits a wide variety of applications.

Now we've made our trusted ND Series lock even better by making it easier to install. We've added these enhancements because we know that a lock installed correctly the first time will last longer and perform better. And the longer the lock lasts, the lower the cost of ownership over the life of the lock.

We've also beefed up our warranty to provide 10 years of coverage. The result: greater peace of mind that every door is safe and secured with a lock built to last.

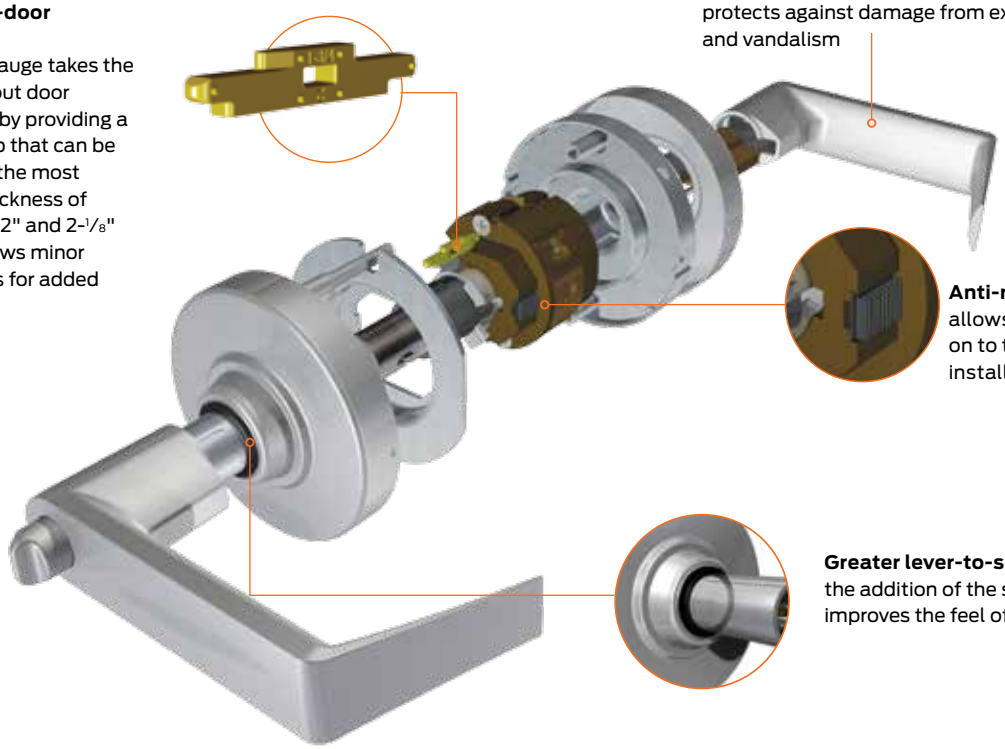

A simpler, smarter ND Series lock

Built-in durability exceeds ANSI/BHMA grade 1 cycle test requirements

Chassis-to-door alignment
the yellow gauge takes the guesswork out door adjustment by providing a positive stop that can be adjusted to the most common thickness of 1-5/8", 1-3/4", 2" and 2-1/8" and still allows minor adjustments for added equipment

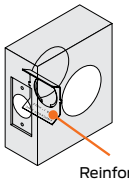

Optional Vandlgard® lever
protects against damage from excessive force and vandalism

Anti-rotation plate retention
allows the plate to be "snapped" on to the chassis making installation easier

Greater lever-to-spindle engagement
the addition of the soft durometer spacer improves the feel of the lever during actuation

ND Series continuous improvements

Door reinforcement
Prevents the collapse of hollow metal doors when locksets are tightly mounted. The unit works with 1 3/8" and 1 3/4" thick doors.

New lever removal tool
The ergonomic design is bigger, stronger and works for both the ND and L series locks. Sold separately.

Chassis slide
In 2010, we redesigned the slide in order to increase the locks overall durability and improve component alignment.

Locking lug and key cam
In 2009 we improved the locking lug and keycam by making them stronger and more resistant to damage.
