INDUSTRIAL OVERHEAD DOOR SWITCH SET

NOW WITH UNIVERSAL FIT MOUNTING HOLES

INSTALLATION APPLICATIONS:

The G.R.I. 200 series is referenced and produced as an industrial grade floor mount switch. Primarily used for the protection of overhead doors where the operation of heavy motorized traffic would make it impossible to use any type of a plastic encapsulated switch. The new 200-36 Series case allows replacement of a new contact switch without redrilling. The 200 housing is extruded from a 6063 T5 aluminum material and tested to withstand a crushing force of 20,000 pounds or 10 tons without harming or causing failure of the delicate reed switch. All mounting hardware is provided as well as a mounting bracket for the actuating magnet. A 1/4" masonry bit is required for anchor installation.

200-36

GRI products meet or exceed these minimum general specifications:

PART NUMBER	LOOP TYPE	ELECTRICAL CONFIG.	REED FORM	MAXIMUM INITIAL CONTACT RESISTANCE (Ω)	MAXIMUM CONTACT RATING (W)	MAXIMUM SWITCHING VOLTAGE (VDC)	MAXIMUM SWITCHING CURRENT (A)
