40H MORTISE LOCK

Beauty or Functionality? Elegance or Performance? Aesthetics or Security? When you select the 40H mortise lock you no longer have to choose between appearance and utility. With three levels of trim designs from which to choose, you can transform your 40H mortise lock into an appealing accent of the opening, rather than an operational necessity. Regardless of which design you choose, you'll receive the full benefits of the strength, durability, and flexibility that's been designed into every 40H mortise lock.

Specifications
