MICRO SURFACE MOUNT SWITCH SET

INSTALLATION APPLICATIONS:

The Micro 500 switch is aimed at residential applications where aesthetics and small size play a large consideration in the switch choice. It offers the installer alternative wire configurations, end or side leads and a choice of wire lengths. All help to make installations and connections quick and easy, saving you time and money. Available in regular gap of 1/4"+. The flexibility of its small overall size allow it to become part of the existing decor. It can be mounted and hidden, for example, in the track of a sliding door or crank out window. Offered in white or brown, with 3M double sided tape attached. Also available as switch only or magnet only.
