CAPPED MINIATURE SURFACE MOUNT SWITCH SET, WIDE GAP

INSTALLATION APPLICATIONS:

The 700 Series switch is aimed at residential applications where aesthetics and small size play a large consideration in the switch choice. It offers the installer alternative wire configurations; terminal connections, end or center leads and a choice of wire lengths. All help to make installations and connections quick and easy, saving you time and money. Available in regular gap of 3/4". The flexibility of its small overall size allow it to become part of the existing decor without drilling into the window frame. Offered in white or brown, with 3M double sided tape attached. Also available as switch only or magnet only.

GRI products meet or exceed these minimum general specifications:
