Weather-Resistant, Outdoor Keypad (RIGHT)

PRIMARY APPLICATIONS

DESCRIPTION

BEA's Keypads offer field-proven reliability and cost effective solutions anywhere access control is desired. These keypads are designed for basic access or code control for up to four individual devices. They are ideal for integration into security systems with electromagnetic locks, electric strikes, restricted access elevators or gates and other types of equipment requiring on/off or momentary control inputs.

All programming is completed entirely from the keypad. Non-volatile memory means codes and instructions will remain with power removed.

FEATURES & BENEFITS

- Allows for up to 120 individual user codes
- Codes can be one to six digits in length with repeats
- Input trigger for security or other open circuit contact
- Keypress feedback acknowledgment is indicated by a yellow LED
- 4 independent output and 4 independent timers assignable by code
- 3 additional outputs with accessory board (sold separately)
- Available in standard indoor or weather-resistant outdoor models
