# PNEUMATIC PUSH BUTTONS

## ADJUSTABLE TIME DELAY SECURITY BUTTON

SHOWN ABOVE:
SINGLE STYLE WITH RED AND GREEN 2" BUTTON
JAMB STYLE WITH BLUE 1 5/8" BUTTON

### PRIMARY APPLICATIONS

### DESCRIPTION

BEA's Pneumatic Push Buttons are ruggedized, including stainless steel faceplates and colored, anodized aluminum buttons, appropriate for most indoor applications.

The device is uniquely designed to minimize the number of moving parts, in turn reducing the wear and tear of the button and extending the life of the device.

Upon activation, the user-defined time delay initiates without additional mechanical action or the need of external power.

### FEATURES & BENEFITS

- Adjustable time delay of 2 to 60 seconds
- Listed UL 508/ CSA C22.2 No 14-10 with MET LABS, File #E113051
- Available in single and jamb size plates
- Buttons available in 1 5/8 inch (standard) or 2 inch (large) sizes
- Available in a variety of combinations of color, text and logo upon request
- Tested to perform greater than 1 million operations
