Architectural Door Accessories

ASSA ABLOY

The global leader in door opening solutions

Pemko Side Wall Track System

Saves Valuable Space

The Pemko Side Wall Track System allows sliding doors to be used on the face of the wall, converting swing door clearance into usable space. The Side Wall Track System is made to mount quickly and provide years of trouble-free operation.

The Pemko Side Wall Track System has a unique mounting bracket that is extruded with the track and is provided with an innovative wall-mounted bottom guide assembly, allowing carpet to be replaced without removing the door.

The Side Wall Track can be used in new construction or in retrofit openings. Existing doors can be retrofit into sliding doors. The system is available with three fascia options to best complement the decor.

Features	Benefits
Quick, easy attachment; no additional brackets or shims needed	Lower installation cost
Continuous bracket and matching end plates	Track is hidden from view for a professional, finished appearance
Three styles of fascia available	Complements decor
Zinc alloy ball bearing wheels coated in nylon	Door rolls smoothly and quietly
Can be trimmed to fit	Solution for odd size openings

Applications:

- Offices
- Conference Rooms
- Hospitality
- Healthcare Facilities
