Dummy Push Bar

Aluminium

Hollow Metal

Wood

The 8099 Dummy Push Bar is designed for narrow stile aluminum, hollow metal, and wood applications that do not require a latching/locking life-safety exit device.

Function

Dummy Push Bar with no latch mechanism but with either single or dual monitor/signal switches. May be used in conjunction with a maglock, where the push bar turns off the magnet and allows exit from the building. Dual switch version allows redundancy where required by code or the operation of a signal device. Designed for applications with single or pairs of doors.
