CLX3300 Series Cylindrical Lock

THE INTERSECTION OF STRENGTH AND STYLE

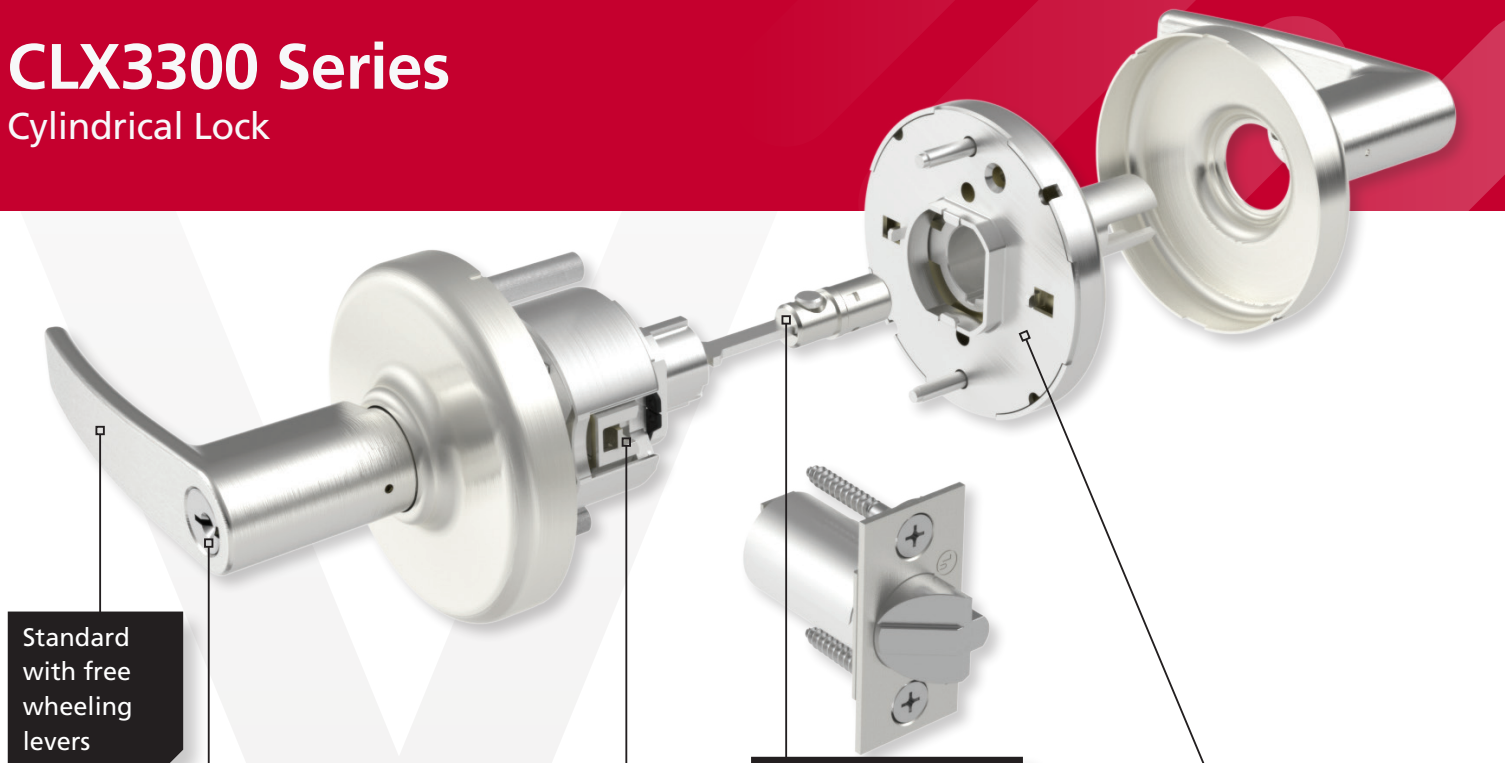

Designed to secure high-traffic spaces where aesthetics are important, the CLX3300 Series ANSI/BHMA Grade 1 cylindrical lock is manufactured of the highest-quality materials to provide durability, strength, and reliability. It is also available in all industry-standard finishes and a variety of decorative levers, so you'll never have to sacrifice style for strength. And, it supports all cylinder formats — from fixed to interchangeable cores, making the CLX3300 Series the ideal choice for new construction and retrofit projects.

Experience a safer and more open world

CLX3300 Series

Cylindrical Lock

FEATURES

- Prevents entry and maintains egress against more than 3,100 in-lb locked lever torque (2.6x ANSI/BHMA A156.2 requirements)
- Withstands 1,600 lbs offset lever pull (8x ANSI/BHMA A156.2 requirements)
- Ensures latch retraction with 100lb preload (2x ANSI/BHMA A156.2) while maintaining operation in warped doors or doors with latch bind
- Prohibits entry after more than 100 vertical impacts (20x ANSI/BHMA A156.2 requirements)
- Innovative push/turn button design prevents damage from door stops and walls
- 26 mechanical functions offered
- Available in 14 finishes with multiple lever designs
- Optional Microshield® antimicrobial coating available
- Lockbody design supports all cylinder formats - from fixed to interchangeable core

BENEFITS

- Provides maximum resistance to vandalism and other malicious attacks
- Certified above & beyond testing to withstand high volume traffic
- Complements the look of any design style
- Minimizes inventory stocking requirements
- Simplifies installation in new and retrofit applications
- Integrates with new or existing facility's key systems
