Price book 14 addendum for new ND Series Indication Trim

The new indicator trim for Schlage Grade 1 ND Series cylindrical locks will begin manufacturing on April 1, 2024. As a new offering there is no impact to existing product listings or prices shown in price book 14 which also goes into effect March 1. The new lock status indication trim is radically different than any cylindrical trim in the marketplace and offers many benefits for your customers:

- Can be ordered configured or as a retrofit kit
- Window size is unmatched in the market using an escutcheon style trim to allow the message to run the full width of the lock at a height of .6” for maximum visibility
- It can be installed using the same standard door prep as any ND Series lock
- Trim is available on eight functions, one-sided only (ordered handed)
- Fits 1-3/4” doors
- Sold separate spacer plates increase door range to include 1-3/8” to 1-11/16” doors

Available on these functions

Classroom and other uses (inside only indication)			**Privacy** (outside only indication)
