E Series Occupancy Indicator Deadbolt

Classic Product

The Arrow Occupancy Indicator deadbolt, available on the E Series Grade 2 Arrow Deadbolt, provides privacy control by utilizing a large external viewing window that signals when the room is occupied. The Arrow Occupancy Indicator uses an emergency key override to unlock the door from the outside in case of emergency. When the deadbolt is in the locked position, an external slot is exposed that provides for the use of the override key. When this key is used, the key is captured in the deadbolt and cannot be removed until the deadbolt is retracted or turned to the "Vacant" or unlocked position. This product is ideal for use in restroom facilities and other areas requiring visual notification of use and secured privacy.

Certification & Compliance:

- ANSI A156.5, Auxiliary Locks, Grade 2

BHMA CERTIFIED
Be Safe. Be Secure. Be Certified.

General Specifications:
