Featured Finishes

689: Aluminum Powder Coat

695: Dark Bronze Powder Coat

Reliant 5000 Series Features and Benefits

- **Tested security.** The Reliant 5000 Series is built to ANSI Grade 1 standards, for proven security you can trust.
- **Easy installation.** Reliant 5000 Series exit devices allow for installation on doors that are not completely flat or when vision lites or glass project beyond the door. The Reliant 5000 Series mounts directly on the face of the door, so it doesn't require shims, cutting glass molding, or specially sized hardware and components to install.
- **Flexible options.** The Reliant 5000 Series is field reversible, and available in a variety of customization options, including exit alarm—standard or weatherized—kits, cylinder dogging, and touchbar monitoring.
- **Reliable results.** With heavy-duty construction, the Reliant 5000 delivers durable results even in high traffic applications. Sound dampeners reduce operational noise, and rugged finish options ensure long-lasting wear.
