- Momentary action switch standard
- Stainless steel faceplate
- Available in Spanish and blank versions (additional charges applicable)
- Tamper-Resistant

Stainless Steel Switches

These popular stainless steel switches meet the highest construction and performance standards. Dependable, responsive and easy to install, these assisted door switches are ideal for a broad range of door automation applications.

In addition to the regular faceplate size, model 940 features a narrow faceplate for mounting on door frames. Model 950 comes in the standard 4-1/2" (114.3mm) diameter as well as a handy 6" (152.4mm) diameter for high visibility and **easy** use.

Optional Mounting Accessories
