SBX-LSP

Stainless Steel Security Lock Box

For Video Door Stations with embedded prox readers or access keypads

- INSTRUCTIONS -

The SBX-LSP is an 18-Gauge stainless steel lockable enclosure designed to give the video door station added protection during non-business hours. This enclosure is designed to be mounted with the following model Aiphone units: AX-DVF-P, JF-DVF-HID, JF-DVF-HID-I, JK-DVF-HID, and JK-DVF-AC.

CONTENTS:

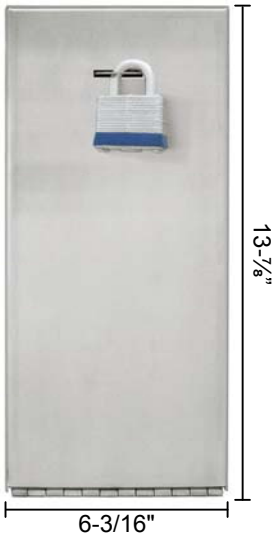

- SBX-LSP Enclosure
- "L" bracket (for securing in open position)
- Instructions

MOUNTING INSTRUCTIONS:

1. Install flush mount back box per door station's standard instructions.
2. Pass door station wiring through the center of the SBX-LSP and attach to door station.
3. Secure the SBX-LSP and door station to the flush mount back box using the security screws supplied with door station.
4. Align and install the "L" bracket to the wall to lock the cover in the open position while the system is in use.
5. When the system is not in use, lock in the cover in the closed position.

NOTE: Customer is to provide a security lock of their choosing to lock the panel in the closed or open position.
