Standard Cores and Keys
by BEST

Industry-leading quality, flexibility, and performance.

BEST's Standard Cores and Keys draw on the legacy of quality and expertise that keep our products on the forefront of the industry. Held to our strict internal standards for materials, workmanship, and innovation, Standard Cores and Keys incorporate an attention to detail that makes them easy to install and retrofit while maintaining exceptional security and performance over time.

The foundation of mechanical security.

We invented the small format interchangeable core (SFIC) in 1921. Over time, our SFIC has only become more responsive to facilities and door openings as we've perfected it for smoother operation, more predictable performance and guaranteed longevity.

- **Enhanced integrity.** We manufacture Standard Cores and Keys with tighter tolerances for greater lock integrity and the highest mechanical security.
- **Industry-leading quality.** Each Standard offering is subject to our stringent internal quality requirements, which meet or exceed industry standards.
- **Long-term durability.** Brass alloy core construction and nickel silver keys and pins result in reliable performance over time.

Our Standard Cores and Keys stand at the pinnacle of mechanical locking solutions, with features t hat exceed industry standards and deliver results in a wide range of applications.

BEST Standard Cores and Keys deliver exceptional quality and performance for flexible solutions that fit a variety of applications.

Exceptional solutions for more applications.

BEST Premium Cores and Keys Specifications	
Certifications	ANSI/BHMA A156.5 Series—Grade 1 BAA & TAA compliant
Product Specifications	**Core:** Brass alloy **Key:** Nickel silver SFIC Construction Core available
Keying	5-pin SFIC 6-pin SFIC 7-pin SFIC 29 unique keyways
All Finishes	605: Bright Brass 606: Satin Brass 611: Bright Bronze 612: Satin Bronze 613: Oil-rubbed Bronze 625: Bright Chrome 626: Satin Chrome 690: Dark Bronze Coated
Warranties	Three-year limited

Features

BEST Standard Cores and Keys

- **Easy retrofit.** BEST's small format interchangeable cores make retrofitting and rekeying simple. Individually capped core pin chambers reduce repinning labor.
- **More flexibility.** BEST Standard Cores and Keys 5-, 6-, and 7-pin SFIC options allow for more flexibility. Masterkeyed shear lines allow multi-level access.

Featured Finishes

605 Bright Brass

606 Satin Brass

612 Satin Bronze

613 Oil-rubbed Bronze

625 Bright Chrome

626 Satin Chrome

690 Dark Bronze Coated

BA-0259 04/21

Premium Cores and Keys
by BEST

A robust core and key solution for high traffic applications.

BEST's Premium Cores and Keys combine the exceptional quality, materials, and workmanship you expect from BEST with design features chosen to enhance durability and security. Our Premium Keys use thicker key blanks and larger bows that stand up to heavy use, and paracentric keyways increase security. Premium cores incorporate tough construction with tight tolerances and more options, enabling flexible, secure solutions..

The foundation of mechanical security.

The unique way a key and core come together is the foundation of how every opening is secured. With our unique combinating and keying, our distributors can ensure keys and cores work together in a way that not only ensures the integrity of every opening, but also makes them easy to maintain and manage over the life of the product.

- **High security.** We designed our Premium Keys with paracentric keyways to increase security and reduce the risk of lock picking.
- **Greater strength.** Constructed from corrosionresistant brass alloy, BEST Premium Cores are tough, strong, and long-lasting.
- **Flexible solutions.** Masterkeyed shear lines enable multi-level access, SFIC permits quick rekeying, and individually capped core pin chambers reduce repinning time.

We designed our Premium Cores and Keys to perform in even the highest traffic applications.

For high traffic applications where security and durability count, choose BEST Premium Cores and Keys.

Designed for unparalleled durability.
With thicker keys that resist breakage and damage, and top-quality materials chosen to withstand wear and tear while providing high-level security,
BEST Premium delivers durability and reliable performance you can trust.

BEST Premium Cores and Keys Specifications	
Certifications	ANSI/BHMA A156.5 Series—Grade 1 BAA & TAA compliant
Product Specifications	**Core:** Brass alloy **Key:** Nickel silver SFIC Construction Core available
Keying	7-pin SFIC 8 available keyways
All Finishes	605: Bright Brass 606: Satin Brass 611: Bright Bronze 612: Satin Bronze 613: Oil-rubbed Bronze 625: Bright Chrome 626: Satin Chrome 690: Dark Bronze Coated
Warranties	Three-year limited

Features

BEST Premium Cores and Keys

- **Enhanced durability.** BEST Premium Keys use our thickest key blanks and larger bows, making them less prone to breakage and damage even in high use applications.
- **Tight tolerances.** Engineered with tight tolerances, BEST Premium Cores and Keys deliver greater mechanical security and lock integrity.
- **Exceptional quality.** We make our Premium Cores and Keys from top-quality materials, and apply our stringent internal quality controls throughout the design and manufacturing process to ensure that each system exceeds industry standards.
