Modular Towers

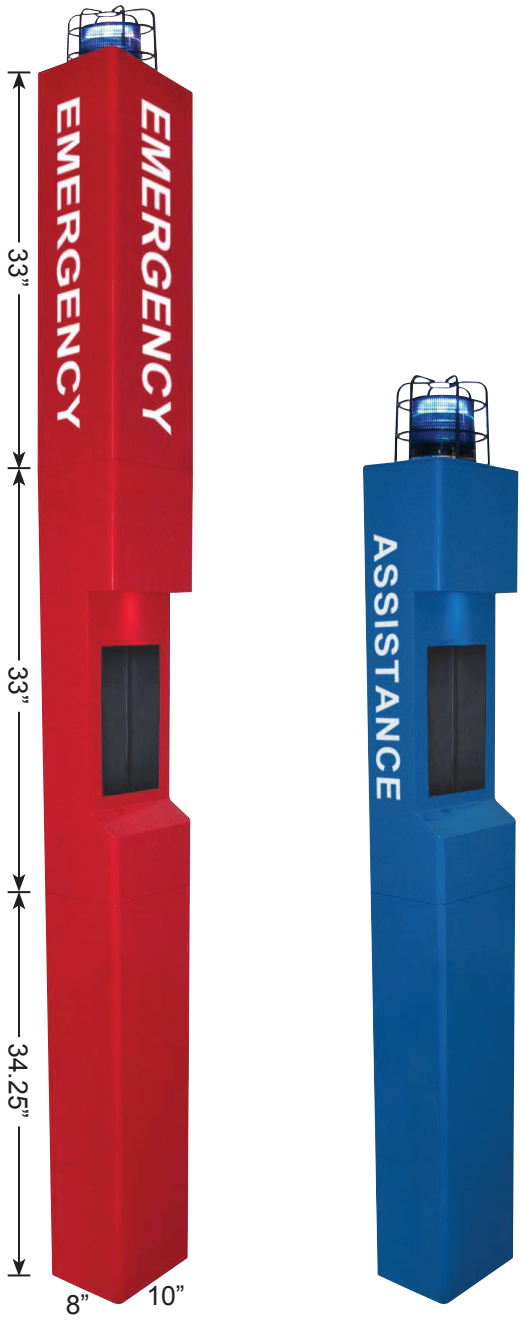

Assistance and Emergency Towers

DESCRIPTION:

The modular towers for housing the IX and IS remote stations are designed to suit a variety of application needs for assistance and emergency call stations. Used in areas such as campuses, parking garages, malls or courtyards, these towers can be customized by size, color, configuration, and signage. Compatible with the IX-DF-2RA, IX-SS-2RA, IX-SS-RA, IS-DVF-2RA, IS-SS-2RA, IS-SS-RA, and IS-SS-CI units.

FEATURES:

- Towers made of 0.25” steel
- Powder coated exterior
- Weather and Vandal resistant
- Modular design lets you create the right size, color, configuration, and lettering for your application
- Available in 5 color choices (1.Blue, 2.Red, 3.Yellow, 4.Black, 5.White)
- Signage on both sides and back of short tower and signage on all 4 sides of tall tower for greater visibility
- Assistance and Emergency signage is standard
- Standard beacon/strobe light on top of tower (separate 24VDC power supply required)
- Beacon is always lit; strobe flashes during emergency call-in
- Call button mounting height is within ADA regulations
- Base is 8” D x 10” W
- Lower section is 34.25” H
- Middle and upper sections are 33” H each
