The global leader in door opening solutions

MacPro® Hinges

MacPro® Hinges Get the Job Done Right

High quality contractor grade MacPro® hinges are an extraordinary value, ideal when large quantities of standard hinges are needed.

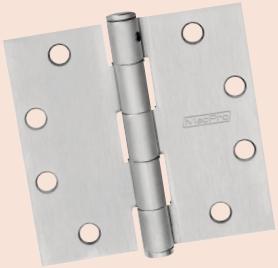

MacPro® hinges include non-bearing and bearing hinges. For doors with a closing device, a bearing hinge must be used. For heavier doors with closing devices, select a heavy weight bearing hinge. Choose Stainless Steel for situations where hinges are exposed to the elements. Choose the NRP (Non-Removable Pin) option in situations where tampering may be an issue.

MacPro® templated hinges are made to conform to ANSI/BHMA 156.1, 156.7.

Features	Benefits
Quality materials and craftsmanship	Product is reliable and easy to install
Durable construction	Low frequency of breakage and repairs
Choice of finishes	Match existing hardware
Standard and heavy weight hinges	Match the right hinge to the application
Installation screws included	Quick installation with proper hardware
3-Day QuickShip Program	Complete the job on time

Applications:

- Apartments
- Hotels / Motels
- Dormitories
- Office Buildings

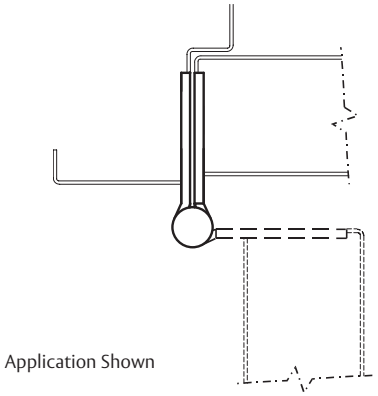

ASSA ABLOY is the global leader in door opening solutions, dedicated to satisfying end-user needs for security, safety and convenience
