DKS
DOORKING®

Self Storage • Apartment Complex/Gated Communities • Residential • Parking • Apartments

Easy Programming and Analysis

You can program online 24/7 giving you the freedom to work when and where you want. From remote bookkeeping and access, to security control on the ground – and everything in between. You even get confirmation to your PC so you always know when your transaction is done. A complete turn-key access management solution.

The DoorKing Account Manager software is powerful, flexible and easy to use which allows you to manage access control in a variety of applications including apartment complexes, gated communities, apartment and condominium building's, college resident halls, office buildings, factories, industrial sites, etc.

Available as a free download from the DKS website: http://www.doorking.com/telephone/software

1830 Series Account Manager

Up to 3000 users and control up to 24 doors (access points).

Create new accounts, program security and permission levels, card and transmitter numbers, hold open time zones, holiday schedules, elevator control functions, and more. Use this program with DKS models 1833, 1834, 1835 and 1837 Telephone Entry and Access Control Systems, and with the model 1838 Multi Door Card Access System.

Access Plus Account Manager

Up to 27 users and control up to 8 doors (access points).

Ease and accessibility of computer programming and control is built into each Access Plus Telephone Entry system. Manage multiple Access Plus systems, as well as command open/deny for a guest, from your PC. For use with the DKS Access Plus Telephone Entry models 1802AP, 1808AP, 1810AP, 1812AP, and 1838AP.

DKS Easy Connection Options

Cellular *

DKS Cellular is a wireless option that replaces standard telephone lines and internet connections. No telephone lines or ethernet cable to install or maintain.

Nationwide Coverage
Set up DKS Cellular Telephone Entry system wherever cell service is available in all U.S. states, its territories, Canada and Mexico.

Turnkey Programming
Easy programming from your computer. Use the simple DKS data exchange software for easy setup and programming from anywhere.

Plug and Play**
Give it power, enable cell service, and you're ready to go.

VoIP - Voice and Data, with an internet connection

DKS VoIP** service provides reliable voice communication and turnkey programming via your internet connection..
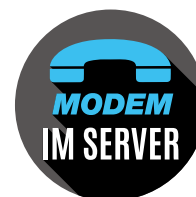

DKS IM Server** Modem™

Utilizes the POTS (Plain Old Telephone Service) line at the telephone entry system to provide data (programming) transfer via the internet connection at your programming computer.

4G LTE CELLULAR
DKS Cellular Option™

VoIP INTERNET
DKS Internet Options™

MODEM IM SERVER
DKS IM Server Modem™
(Pat: 9,049,306)

* DKS Cellular operates on the AT&T 4G-LTE cellular network (where available), and as such, a monthly subsciption fee applies (just like your cell phone). DKS Cellular service is available in all states including Alaska, Hawaii, Puerto Rico and all U.S. Territories, Canada, and Mexico.

**DKS subscription based service.

SIMPLE DATABASE MANAGEMENT

Enter or import employee/ resident information, set access restrictions, assign device codes & set entry codes all in one place.

ANTI PASS-BACK

Prevent multiple people from using a single card. Access cards must enter through the IN point and exit the OUT point before being used at the IN point again.

IMMEDIATE & SCHEDULED DATA TRANSFERS

Instant or automatic scheduled transferring and recieving of user information & event activity transactions between the software program and entry device.

FACILITY ACCESS CODES

Insures that duplicate codes from other facilities cannot work at your facility.

DEVICE ASSOCIATION

Assigns a group label to access codes for easy identification. "Mass Enable" (turn on) a specified range of codes at a time

LIVE TRANSACTIONS

View transactions through the software as they happen

FACILITY COUNTER

Indicates how many card holders are in your facility at any time

SECURITY PERMISSION LEVELS

Create up to 29 different security levels with multiple time zones of allowed entry.

HOLIDAY SCHEDULE

Scheduled Hold Open time zones can be overridden during specified holidays.

HOLD OPEN

Up to 7 time zones can be created to hold open a door or gate at a controlled access point.

ELEVATOR CONTROL

Set restrictions for elevator use, allowing residents or employees access to designated floors

DETAILED LOGGING

Time-stamped records of activities performed by the software

24/7 ONLINE PROGRAMMING

Freedom to work when and where you want.

BACKUP & RESTORE

Easily save and restore or transfer accounts and user information to different computers.

SHARE INFORMATION

Share user information database between multiple entry systems.
