BEYOND SECURITY KABA®

Simplex® *1000*

Features

Access Control

Mechanical pushbutton lock – eliminates problems and costs associated with issuing, controlling, and collecting keys and cards. Provides exterior access by combination, while allowing free egress

No Battery

Fully mechanical lock eliminates the material and labor expense of battery replacements

Locking Device

Cylindrical latch with 3-hour UL/ULC fire rating on "A" labeled doors

Number of Codes

Single access code—one easy-to-manage code for all users

Programming

Lock is easily programmed via keypad without removing lock from the door

Handing

Factory-handed for left-hand doors; easily changed in the field

Key Override (Optional)

Small format interchangeable cores, large format removable cores

Operation Modes

- Pushbutton Access
- Passage (select models)—allows access without using the lock entry code. Feature activated from the inside with a thumbturn or key (included with all passage feature models).
- Lockout (select models)—disables the lock from the inside so that the entry code cannot be used to gain access. Access is permitted using the key override only.

Economical

A cost effective access control solution
